

T4 Manufacturing Inc.

Security plan

1. Perimeter Fence/Gate
 - a. There will be an 8-foot-high perimeter fence that surrounds our building that was design directly with the City of Rio Vista police and fire chiefs.
 - b. We will also have a security gate with keypad and camera.

2. Building Security
 - a. Exterior cameras
 - i. Our building is 49 feet wide and 100 feet long. We will have 12 hi-definition 5 megapixel cameras mounted on the exterior of the building.
 - ii. The cameras and their positions are illustrated exhibit #1.
 1. 4 cameras are mounted on the street side of the hundred-foot length of building.
 2. 2 cameras mounted to the back Side of the building.
 3. 3 cameras on the east façade.
 4. 3 cameras mounted at the front of building with the center camera directly over the front door.
 - b. Exterior Lighting
 - i. There will be 15 high output exterior lights mounted to the building.
 - ii. There will also be a light at the entrance gate.
 - c. Interior Cameras
 - i. There will be a total of 12 hi-definition 5 mega pixel cameras throughout the interior of the building placed at strategic locations to capture all movement and activity. Camera locations were decided upon after consulting with the city's police and fire chiefs.
 - ii. The cameras and their positions are illustrated exhibit #2
 - d. Building Design
 - i. Building design was established after discussion with me City planning commission and the City's police and fire chiefs.
 - ii. The front door will have a hi-tech key pad reader.
 1. The City police and fire departments will have specific gate and door codes.
 2. All company employees will have a specific gate and door codes.
 3. The company's management team will have a specific gate and door codes.
 4. Delivery drivers will be met at the gate and driver's identification and delivery documents will be verified before authorized entry.

T4 Manufacturing Inc.

3. Access restrictions

- a. These measures will help us prevent access to the premises and stop all unauthorized personnel.
- b. Employees job duties will only begin after proper security clearance.
- c. There are three entrance points. The front door, single rear door, and the rollup side door. All entrances will be controlled by keypad access.
- d. There will be no public or visitor access allowed without managements authorization.
- e. Any unauthorized access will trigger the alarm system. It is our intention to be operating 24/7 with employees always on-site.
- f. All Electronic records are secured with a double back-up system. Surveillance footage is stored on site and online.
- g. 24-hour video surveillance signs will be posted on the exterior fence line and on both the interior and exterior walls of the building.
- h. Our safe room doors will have coded locks only assessable by the company's management team.

These measures will help us prevent access to the premises and stop all unauthorized personnel. Businesses in the City of Rio Vista's cannabis business park have discussed sharing evening patrols by a reputable security company. The city of Rio Vista's police station is directly across the street from our facility.
